INDEPENDENT AUDITOR'S REPORT

To the Parliamentary Secretary to the Treasurer

Scope

I have audited the accompanying financial statements of the Australian Securities and Investments Commission for the year ended 30 June 2010, which comprise: a Statement by the Chairman and Chief Financial Officer; Statement of Comprehensive Income; Balance Sheet; Statement of Changes in Equity; Cash Flow Statement; Schedule of Commitments; Schedule of Contingencies; Schedule of Asset Additions; Schedule of Administered Items and Notes to and forming part of the Financial Statements, including a Summary of significant accounting policies.

The Responsibility of the Chairman for the Financial Statements

The Agency's Chairman is responsible for the preparation and fair presentation of the financial statements in accordance with the Finance Minister's Orders made under the *Financial Management and Accountability Act 1997*, including the Australian Accounting Standards (which include the Australian Accounting Interpretations). This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

My responsibility is to express an opinion on the financial statements based on my audit. I have conducted my audit in accordance with the Australian National Audit Office Auditing Standards, which incorporate the Australian Auditing Standards. These auditing standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial

statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Agency's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Agency's Chairman, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independence

In conducting the audit, I have followed the independence requirements of the Australian National Audit Office, which incorporate the requirements of the Australian accounting profession.

Auditor's Opinion

In my opinion, the financial statements of the Australian Securities and Investments Commission:

- (a) have been prepared in accordance with the Finance Minister's Orders made under the *Financial Management and Accountability Act 1997*, including the Australian Accounting Standards; and
- (b) give a true and fair view of the matters required by the Finance Minister's Orders including the Australian Securities and Investments Commission's financial position as at 30 June 2010 and its financial performance and cash flows for the year then ended.

Australian National Audit Office

30 July 2010

Statement by Chief Executive
AND CHIEF FINANCIAL OFFICER

In our opinion, the attached financial statements for the year ended 30 June 2010 are based on properly maintained financial records and give a true and fair view of the matters required by the Finance Minister's Orders made under the *Financial Management and Accountability Act 1997*, as amended.

This statement is made in accordance with a resolution of the Commission members.

1 Supplier expenses for 2008–09 are \$28,516 higher than the amount reported in the 2008–09 financial statements. The increase, which is offset by an increase in 'Other gains' relates to ANAO audit fees received free of charge. Previously this cost was disclosed in the Schedule of Administered Items.

2 This is disclosed in the Statement of Changes in Equity.

The above statement should be read in conjunction with the accompanying notes.

1 On 1 June 2010 ASIC re-assessed the future cost to make good its premises. The increase in restoration obligation has been debited directly to the asset revaluation reserve as it reverses a previous credit to the reserve in respect of the leasehold improvements class of assets. The increase in depreciated replacement costs of leasehold improvements has also been credited directly to the asset revaluation reserve.

2 The transfer from the asset revaluation reserve to retained earnings relates to leasehold improvements previously revalued that ASIC no longer holds.

3 The reduction to equity in 2008–09 and 2009–10 relates to the Standard Business Reporting cross-agency initiative. The reduction to ASIC's equity has been re-directed to other agencies involved in the project.

The above statement should be read in conjunction with the accompanying notes.

ASIC's functions in administering revenues and expenses on behalf of the Government are described below:

- 1 ASIC collects and administers revenue under the *Corporations Act 2001* and prescribed fees set by the *Corporations (Fees) Act 2001* and *Corporations (Review Fees) Act 2003*. This revenue is not available to ASIC and is remitted to the Official Public Account (OPA).
- 2 ASIC has responsibility for the administration of unclaimed monies received from banking and deposit taking institutions. Moneys received from banking and deposit taking institution accounts that remain inactive for seven years are transferred to the Commonwealth, and are deposited into the OPA.
- 3 ASIC also administers monies received from life insurance institutions and friendly societies. Moneys received in respect of matured life insurance policies that have not been claimed for more than seven years are transferred to the Commonwealth and are deposited into the OPA.
- 4 On behalf of the Government, ASIC administers payments to registered insolvency practitioners. These payments are used to fund preliminary investigations of suspected breaches of directors' duties and fraudulent misconduct. The outcomes of the findings made by insolvency practitioners are reported to ASIC.
- 5 Total income administered on behalf of Government for 2008–09 is \$28,516 lower than the amount reported in the 2008–09 financial statements. The decrease, which is offset by a decrease in 'Other expenses' relates to ANAO audit fees received free of charge. This cost is now disclosed in ASIC's Statement of Comprehensive Income.

Note: Intra-Government transactions have been omitted.

The above schedule should be read in conjunction with the accompanying notes.

1.1 Objectives of the Australian Securities and Investments Commission

The Australian Securities and Investments Commission (ASIC) is an independent Commonwealth Government body operating under the *Australian Securities and Investments Commission Act 2001* (ASIC Act) to administer the *Corporations Act 2001*, and other legislation, throughout Australia. ASIC's objectives as outlined in section 1(2) of the ASIC Act include:

- the maintenance, facilitation and improvement in the performance of the financial system and the entities within that system in the interests of commercial certainty, reducing business costs, and the efficiency and development of the economy;
- the promotion of confident and informed participation of investors and consumers in the financial system;
- to administer the laws that confer functions and powers on it effectively and with a minimum of procedural requirements.

ASIC also collects and administers revenue under the *Corporations Act 2001* and prescribed fees set by the *Corporations (Fees) Act 2001* and *Corporations (Review Fees) Act 2003* (Note 1.6 refers).

ASIC's financial results are reported in the context of the Government's outcomes (Note 30 refers). Any intra-Government costs included in arriving at the amount shown as 'net cost/contribution of outcome' are eliminated in calculating the Federal budget outcome for the Government overall.

Government outcomes are the intended results, impacts or consequences of actions by the Australian Government on the Australian community. ASIC's outcomes are described below:

Outcome 1: Improved confidence in financial market integrity and protection of investors and consumers through research, policy, education, compliance and deterrence that mitigates emerging risks.

Outcome 2: Streamlined and cost-effective interaction and access to information for business and the public through registry, licensing and business facilitation services.

ASIC is an agency prescribed under Schedule 1, Part 1 of the *Financial Management and Accountability Regulations 1997* (FMA Regulations).

1.2 Basis of preparation of the financial statements

The financial statements and notes are required by section 49 of the *Financial Management and Accountability Act 1997* (FMA Act) and are general purpose financial statements.

The continued existence of ASIC in its present form and with its present programs is dependent on Government policy and on continuing appropriations by Parliament for ASIC's administration and programs.

The financial statements and notes have been prepared in accordance with the:

- Finance Minister's Orders (FMOs) for reporting periods ending on or after 1 July 2009; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position.

The financial statements are presented in Australian dollars and values are rounded to the nearest thousand dollars unless otherwise specified.

Note 1: Summary of significant accounting policies (continued)

1.2 Basis of preparation of the financial statements (continued)

Unless an alternative treatment is specifically required by an accounting standard or the FMOs, assets and liabilities are recognised in the Balance Sheet when and only when it is probable that future economic benefits will flow to ASIC or a future sacrifice of economic benefits will be required and the amounts of the assets or liabilities can be reliably measured. However, assets and liabilities arising under agreements equally proportionately unperformed are not recognised unless required by an accounting standard. Liabilities and assets that are not recognised are reported in the Schedule of Commitments or the Schedule of Contingencies (other than unquantifiable contingencies, which are reported at Note 10).

Unless alternative treatment is specifically required by an accounting standard, income and expenses are recognised in the Statement of Comprehensive Income when and only when the flow, consumption or loss of economic benefits has occurred and can be reliably measured.

Refer to Note 1.6 for the basis of preparation of the Schedule of Administered Items.

1.3 Changes in accounting policy

There have been no changes in accounting policies during the year ended 30 June 2010.

1.4 Significant accounting judgements and estimates

No accounting assumptions or estimates have been identified that have a significant risk of causing a material adjustment to carrying amounts of assets and liabilities within the next accounting period.

1.5 New Australian Accounting Standards

Adoption of new Australian Accounting Standard requirements

No accounting standard has been adopted earlier than the application date as stated in the standard. No new accounting standards, amendments to standards and interpretations issued by the Australian Accounting Standards Board that are applicable to the current period, have had a material financial impact on ASIC.

Future Australian Accounting Standard requirements

No new standards, amendments to standards or interpretations that have been issued by the Australian Accounting Standards Board and are effective for future reporting periods, are expected to have a material financial impact on ASIC.

1.6 Reporting of administered activities

ASIC collects and administers revenue under the *Corporations Act 2001* and prescribed fees set by the *Corporations (Fees) Act 2001* and *Corporations (Review Fees) Act 2003*. This revenue is not available to ASIC and is remitted to the Official Public Account (OPA). Transactions and balances relating to these fees are reported as administered items.

Administered revenues, expenses, assets, liabilities and cash flows reported in the Schedule of Administered Items and related notes are accounted for on the same basis and using the same policies as for ASIC items, except where stated in Note 1.21.

Administered items are distinguished by shading in these financial statements.

Note 1: Summary of significant accounting policies (continued)

1.7 Revenue

Revenues from Government

Amounts appropriated for departmental outputs appropriations for the year (adjusted for any formal additions and reductions) are recognised as revenue when ASIC gains control of the appropriation, except for certain amounts that relate to activities that are reciprocal in nature, in which case revenue is recognised only when it has been earned.

Appropriations receivable are recognised at their nominal amounts.

Other types of revenue

Revenue from rendering of services is recognised by reference to the stage of completion of projects at the reporting date. Revenue is recognised when:

- the amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and
- the probable economic benefits associated with the transaction will flow to ASIC.

The stage of completion of projects at the reporting date is determined by reference to the proportion that costs incurred to date bear to the estimated total costs of the transaction.

Receivables for services rendered, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance. Collectability of debts is reviewed at the end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

1.8 Gains

Resources received free of charge

Resources received free of charge are recognised as gains when and only when a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense.

Contributions of assets at no cost acquisition for nominal consideration are recognised as gains at their fair value when the asset qualifies for recognition, unless received from another Government agency or authority as a consequence of a restructuring of administrative arrangements.

Resources received free of charge are recorded as either revenue or gains depending on their nature, i.e. whether they have been generated in the course of the ordinary activities of ASIC.

Sale of assets

Gains from disposal of non-current assets are recognised when control of the asset has passed to the buyer.

1.9 Transactions with the Government as owner

Equity injections

Amounts appropriated which are designated as 'equity injections' for a year (less any formal reductions) are recognised directly in contributed equity in that year.

Other distributions to owners

The FMOs require that distributions to owners be debited to contributed equity unless they are of the nature of a dividend. On 25 June 2009, the Finance Minister issued a determination to reduce ASIC's departmental output appropriations by \$3.735m in respect of prior year appropriations and ASIC's 2008-09 equity injection. On 29 June 2010, the Finance Minister issued a determination to reduce ASIC's departmental equity appropriations by \$1.653m. These reductions are shown in the Statement of Changes in Equity.

1.10 Employee benefits

Liabilities for services rendered by employees are recognised at the reporting date to the extent that they have not been settled.

Liabilities for 'short-term employee benefits' (as defined in AASB 119 *Employee Benefits*) and termination benefits due within twelve months of balance date are measured at their nominal amounts.

Note 1: Summary of significant accounting policies (continued)

1.10 Employee benefits (continued)

The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

All other employee benefit liabilities are measured at the present value of the estimated future cash outflows to be made in respect of services provided by employees up to the reporting date.

Leave

The liability for employee benefits includes provision for annual leave and long service leave. No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees of ASIC is estimated to be less than the annual entitlement for sick leave.

The leave liabilities are calculated on the basis of employees' remuneration, including ASIC's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination.

Actuarial reviews of long service leave are undertaken on a five yearly basis. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

Separation and redundancy

Provision is made for separation and redundancy benefit payments. ASIC recognises a provision for termination when it has developed a detailed formal plan for the terminations.

Superannuation

The majority of employees of ASIC are members of the Commonwealth Superannuation Scheme (CSS), the Public Sector Superannuation Scheme (PSS) or the PSS Accumulation Plan (PSSap).

The CSS and PSS are defined benefit schemes of the Australian Government. The PSSap is a defined contribution scheme.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported by the Department of Finance and Deregulation as an administered item.

There are a small number of employees covered under state government and private superannuation schemes. The majority of employees employed in the state government superannuation scheme were originally employed by the various state governments and were transferred to ASIC at its inception in 1989.

ASIC makes employer contributions to the Australian Government and the various state superannuation schemes at rates determined by an actuary to be sufficient to meet the cost to the Government of the superannuation entitlements of ASIC's employees. The liability for superannuation recognised as at balance date represents the outstanding contributions payable as at 30 June.

1.11 Leases

A distinction is made between finance leases and operating leases. Finance leases effectively transfer from the lessor to the lessee substantially all the risks and rewards incidental to ownership of leased assets. An operating lease is a lease that is not a finance lease. In operating leases, the lessor effectively retains substantially all such risks and benefits.

Where an asset is acquired by means of a finance lease, the asset is capitalised at either the fair value of the leased property or, if lower, the present value of minimum lease payments at the inception of the contract and a liability is recognised at the same time and for the same amount.

The discount rate used is the interest rate implicit in the lease. Leased assets are depreciated over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are expensed on a straight-line basis which is representative of the pattern of benefits derived from the leased assets.

Note 1: Summary of significant accounting policies (continued)

1.12 Finance costs

All finance costs are expensed as incurred.

1.13 Cash and cash equivalents

Cash and cash equivalents includes notes and coins held and any deposits in bank accounts with an original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value. Cash is recognised at its nominal amount.

1.14 Financial assets

ASIC's financial assets are classified as 'loans and receivables' for the purposes of AASB 139 *Financial Instruments: Recognition and Measurement*.

Financial assets are recognised and derecognised at transaction date.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest rate basis.

Loans and receivables

Trade receivables and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest rate.

Impairment of financial assets

Financial assets are assessed for impairment at each balance date.

Financial assets held at amortised cost – if there is objective evidence that an impairment loss has been incurred for 'loans and receivables' financial assets, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount is reduced by way of an allowance account. The loss is recognised in the Statement of Comprehensive Income.

1.15 Financial liabilities

Financial liabilities are classified as 'other financial liabilities' for the purposes of AASB 139 *Financial Instruments: Recognition and Measurement*.

Financial liabilities are recognised and derecognised at transaction date.

Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Supplier and other payables are recognised at amortised cost. Liabilities are recognised to the extent that the goods or services have been received (and irrespective of having been invoiced).

1.16 Contingent liabilities and contingent assets

Contingent liabilities and contingent assets are not recognised in the Balance Sheet but are reported in the relevant schedules and notes. They may arise from uncertainty as to the existence of a liability or asset, or represent an existing liability or asset in respect of which the amount cannot be reliably measured. Contingent assets are reported when the chance of settlement is probable but not virtually certain. Contingent liabilities are disclosed when the chance of settlement is greater than remote.

Note 1: Summary of significant accounting policies (continued)

1.17 Acquisition of assets

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition, unless acquired as a consequence of restructuring of administrative arrangements. In the latter case, assets are initially recognised as contributions by owners at the amounts at which they were recognised in the transferring agency's accounts immediately prior to the restructuring.

1.18 Leasehold improvements, plant and equipment

Asset recognition threshold

Purchases of leasehold improvements, plant and equipment are recognised initially at cost in the Balance Sheet, except for purchases costing less than \$2,000, which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total).

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located, if it is contractually required. 'Make good' provisions in property leases are accounted for on this basis. These costs are included in the value of ASIC's leasehold improvements with a corresponding restoration provision recognised.

Revaluations

Fair values for each class of asset are determined as shown below:

Asset class	Fair value measured at
Leasehold improvements	Depreciated replacement cost
Plant and equipment	Market selling price

Following initial recognition at cost, leasehold improvements, plant and equipment are carried at fair value less accumulated depreciation and accumulated impairment losses. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depends upon the volatility of movements in market values for the relevant assets.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reverses a previous revaluation decrement of the same asset class that was previously recognised in the surplus/(deficit). Revaluation decrements for a class of assets are recognised directly in the surplus/(deficit) except to the extent that they reverse a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset restated to the revalued amount.

Note 1: Summary of significant accounting policies (continued)

1.18 Leasehold improvements, plant and equipment (continued)

Depreciation

Depreciable leasehold improvements, plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to ASIC. Computer equipment is depreciated using the declining balance method while all other plant and equipment and leasehold improvements are depreciated using the straight-line method.

Depreciation rates (useful lives), residual values and depreciation methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	2010	2009
Leasehold improvements	Lease term	Lease term
Computer equipment	1 to 5 years	1 to 5 years
Plant and equipment (owned)	2 to 95 years	2 to 95 years
Plant and equipment (leased)	n/a	2 to 5 years

Impairment

Leasehold improvements, plant and equipment are assessed for impairment at the end of each financial year. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if ASIC were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

1.19 Intangibles

ASIC's intangibles primarily comprise internally developed software for internal use. As there is no active market for the majority of ASIC's software assets these assets are carried at cost less accumulated amortisation and impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful life of ASIC's software is 2 to 5 years (2009: 2 to 5 years).

All software assets are assessed for indications of impairment at the end of each financial year.

1.20 Taxation

ASIC is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses, assets and liabilities are recognised net of GST except for receivables and payables and where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Note 1: Summary of significant accounting policies (continued)

1.21 Reporting of administered activities

Administered revenues, expenses, assets, liabilities and cash flows are disclosed in the Schedule of Administered Items and related notes.

Except where otherwise stated below, administered items are accounted for on the same basis and using the same policies as for departmental items, including the application of Australian Accounting Standards and Interpretations.

Administered cash transfers to and from the Official Public Account (OPA)

Revenue collected by ASIC for use by the Government rather than ASIC is administered revenue. Collections are transferred to the OPA maintained by the Department of Finance and Deregulation (DoFD). Conversely, cash is drawn from the OPA to make payments under Parliamentary appropriation on behalf of Government. These transfers to and from the OPA are adjustments to the administered cash held by ASIC on behalf of the Government and reported as such in the Statement of Cash Flows in the Schedule of Administered Items and in the administered reconciliation table in Note 20. Accordingly the Schedule of Administered Items largely reflects the Government's transactions, through ASIC, with parties outside the Government.

Revenue

All administered revenues are revenues relating to the course of ordinary activities performed by ASIC on behalf of the Australian Government.

Administered revenue is generated from annual review fees, other fees and search products prescribed under the *Corporations (Fees) Act 2001* and *Corporations (Review Fees) Act 2003*. Administered fee revenue is recognised on an accruals basis when:

- the client or the client group can be identified in a reliable manner;

- an amount of prescribed fee or other statutory charge is payable by the client or client group under legislative provisions; and
- the amount of the prescribed fee or other statutory charge payable by the client or the client group can be reliably measured.

Administered revenue is recognised at its nominal amount due and an expense is recognised for impaired debts. Collectability of debts is reviewed at balance date. Impairment allowances are recognised when collection of the debt is no longer probable.

Receivables

Administered revenue is recognised at its nominal value less an impairment allowance. The Finance Minister has determined that statutory receivables are not financial instruments and accordingly ASIC has assessed administered receivables for impairment under AASB 136 *Impairment of Assets* (FMO 31.1).

The impairment allowance is raised against receivables for any doubtful debts and any probable credit amendments, and is based on a review of outstanding debts at balance date. This includes an examination of individual large debts and disputed amounts with reference to historic collection patterns.

The impairment allowance expense is the result of estimation techniques to determine an estimate of current Corporations Act debts which are unlikely to be collected in future. Large debt amounts are individually reviewed while the impairment allowance of the remaining debts is estimated using sampling methodologies.

Administered receivables that are irrecoverable at law or are uneconomic to pursue are written off under section 34 of the FMA Act.

Note 1: Summary of significant accounting policies (continued)

1.21 Reporting of administered activities (continued) Unclaimed moneys – administered items Banking Act administration

ASIC is responsible for the administration of unclaimed moneys from banking and deposit taking institutions.

In accordance with the *Banking Act 1959* moneys from bank and deposit taking institution accounts that are inactive for seven or more years are transferred to the Commonwealth and are deposited into the OPA. Refunds are paid to successful claimants out of the OPA.

Life Insurance Act administration

ASIC is responsible for the administration of unclaimed moneys from life insurance institutions.

In accordance with the *Life Insurance Act 1995* moneys in respect of matured life insurance policies that have not been claimed within seven years are transferred to the Commonwealth from life insurance companies and friendly societies, and are deposited into the OPA. Refunds are paid to successful claimants out of the OPA.

1.23 Expenditure of boards and tribunal

Pursuant to Parts 11 and 12 of the *Australian Securities and Investments Commission Act 2001* and the *Superannuation (Resolution of Complaints) Act 1993*, ASIC is required to support various boards and a tribunal to promote activities that enable ASIC to attain its aims. The boards are the Australian Accounting Standards Board (up to 30 June 2009) and the Companies Auditors and Liquidators Disciplinary Board. The tribunal is the Superannuation Complaints Tribunal. Employee and administrative expenditure incurred on behalf of these boards and the tribunal are included in the Statement of Comprehensive Income of ASIC (Note 26 refers).

1.24 Comparative figures

Where necessary, comparative figures have been adjusted to conform with changes in presentation in this financial report.

1.25 Rounding

Amounts have been rounded to the nearest \$1,000 except in relation to the following:

- remuneration of senior executive officers;
- remuneration of auditors; and
- administered fee write-offs and waivers.

1.26 Insurance

ASIC has insured for risks through Comcover, the Government's insurable risk managed fund. Workers' Compensation is insured through Comcare Australia.

Note 2: Events after the balance sheet date

There were no events occurring after balance date that had a material effect on the financial statements.

1 Contributions to superannuation schemes are at rates calculated to cover existing and emerging obligations. The employer contribution rate for the Commonwealth Superannuation Scheme was 18.5% (2009: 29.4%), the Public Sector Superannuation Scheme was 13.3% (2009: 13.8%), the PSS Accumulation Scheme was 15.4% (2009: 15.4%), and the superannuation productivity benefit was approximately 2.0% to 3.0% (2009: 2.0% to 3.0%).

2 Separation and redundancies are generally calculated on the basis of two weeks pay for every year of service for each employee with a minimum of four weeks and a maximum of 48 weeks.

All revaluations are conducted in accordance with the revaluation policy stated at Note 1.17. In 2006–07, Simon O'Leary AAPI MSAA, an independent valuer from the Australian Valuation Office conducted a revaluation of ASIC's leasehold improvements.

The carrying value of leasehold improvements were reviewed at 30 June 2010. No indicators of impairment were found for leasehold improvements at 30 June 2010.

Quantifiable contingencies (ASIC departmental)

As at the date of this report, there are eight matters (2009: 12 matters) for which ASIC has received an award of costs in its favour, and agreement with respect to the quantum payable to ASIC has not been reached. ASIC has estimated these matters represent a combined receivable of \$0.735m (2009: \$1.168m), which is disclosed as a contingent asset because realisation of this debt is not virtually certain.

As at the date of this report, there is one matter (2009: two matters) in respect of which ASIC reasonably expects to have an award of costs against it. ASIC has estimated the potential liability for costs in relation to this matter is \$0.05m (2009: \$0.12m).

Quantifiable contingencies (assets held in trust)

Companies Unclaimed Moneys

Unclaimed moneys held by ASIC, pursuant to Part 9.7 of the *Corporations Act 2001*, that have not been claimed within six years are transferred to the Commonwealth and deposited into the Official Public Account. A contingent liability estimated to be \$0.912m (2009: \$0.92m) represents an estimate of future claims for repayment from the Official Public Account. The estimate of future claims for repayment at 30 June 2010 was determined using a methodology provided by an independent actuary (Russell Investment Group).

Note 10: Contingent liabilities and assets (continued)

Unquantifiable contingent liabilities

ASIC is party to many civil litigation matters arising out of its statutory duty to administer and enforce laws for which it is responsible. As at the date of this report there is one matter (2009: two matters) where costs have been awarded against ASIC but where it is not possible to reliably estimate the liability at this time. The quantum of costs payable has not been negotiated with the other party and the case concerned has been appealed by ASIC. The outcome of the appeal is likely to have a material impact on the quantum of costs payable.

In addition, like any corporate body, ASIC may from time to time be the subject of legal proceedings for damages brought against it, or may receive notice indicating that such proceedings may be brought. In either case ASIC, like any other party to civil litigation, may be required to pay the other party's costs if ASIC is unsuccessful.

Civil litigation brought, or threatened to be brought, against ASIC as a defendant

There are at the date of this report, two matters of this type where proceedings are current. In each of those matters, ASIC denies liability and is of the view that, save for having to pay legal fees and other out-of-pocket expenses, it is likely that ASIC will:

- (a) successfully defend the action instituted; and
- (b) not be required to pay any damages.

Future compensation claims

The Scheme for Compensation for Detriment Caused by Defective Administration (CDDA) is a method for agencies to provide compensation to persons who have been adversely affected by the maladministration of agencies, but who have no legal means to seek redress, such as a legal claim. It is not possible to estimate the value of potential future CDDA claims.

Unquantifiable contingent assets

Conversely, ASIC, like any other party to civil litigation may be entitled to recover costs arising out of such litigation if it is successful.

There is one matter at the date of this report where ASIC reasonably expects to have an award of costs in its favour however it is not possible to reliably estimate the amount recoverable.

Note 11: Related party disclosures

The Commissioners of ASIC during the financial year and to the date of this report were:

- A. M. D'Aloisio (Chairman)
- J. R. Cooper (Deputy Chairman to 10 July 2009)
- B. G. Gibson (Commissioner to 6 May 2010, Deputy Chairman from 7 May 2010)
- P. J. Boxall (Commissioner)
- M. J. Dwyer (Commissioner)
- G. J. Medcraft (Commissioner)
- S. F. Tregillis (Commissioner from 17 May 2010)

Loans to Commissioners and Commissioner-related entities

There were no loans made to Commissioners or Commissioner-related entities during the reporting period.

Other transactions with Commissioner-related entities

There were no other transactions with Commissioner-related entities during the reporting period, other than the payment of fees levied under the *Corporations (Fees) Act 2001* and *Corporations (Review Fees) Act 2003*.

Note 12: Remuneration of Commissioners

Financial statement audit services were provided free of charge to ASIC. The fair value ¹ of that service during the reporting period is:	172,360	158,420

No other services were provided by the Auditor-General.

1 Remuneration of auditors for 2008–09 is \$28,516 higher than the amount reported in the 2008–09 financial statements. Previously this cost was disclosed in the Schedule of Administered Items.

Note 15D: Fair values of financial instruments

The fair values of financial liabilities at amortised cost approximate their fair value.

Note 15E: Credit risk

ASIC is exposed to minimal credit risk as loans and receivables are cash and trade receivables. The maximum exposure to credit risk is the risk that arises from potential default of a debtor. This amount is equal to the total amount of trade receivables, 2010: \$2,319,998 (2009: \$2,262,411). ASIC has assessed the risk of the default on payment for each receivable and has allocated \$335,502 in 2010 (2009: \$369,068) to an allowance for doubtful debts account.

ASIC has policies and procedures that guide employees' debt recovery techniques that are to be applied where debts are past due.

ASIC holds no collateral to mitigate against credit risk.

The table below shows the credit quality of financial instruments not past due or individually determined as impaired.

Total	40	4	–	17	61

Note 15F: Liquidity risk

ASIC's financial liabilities are trade creditors. ASIC does not expect to have difficulty meeting its financial liabilities as and when they become due and payable.

All ASIC's financial liabilities as at 30 June 2010 and 30 June 2009 are payable within one year.

As at 30 June 2010 ASIC has no financial liabilities payable on demand (2009: nil).

Note 15G: Market risk**Currency risk**

ASIC's exposure to 'currency risk' is minimal as only a small number of contracts are in currencies other than Australian dollars.

Interest rate risk

ASIC's financial instruments are not exposed to interest rate risk.

Note 25: Appropriations (continued)

Note 25C: Acquittal of authority to draw cash from the Consolidated Revenue Fund for special appropriations (unlimited amounts)

ASIC receives special appropriations for refunds of collected moneys when required (further details are provided within the tables below). The purpose of this note is to summarise the actual utilisation of the CRF for these special appropriations compared to the initial estimate included in the Government's Budget for each class of appropriation.

	2010 \$'000	2009 \$'000
Banking Act 1959		
Legal authority – <i>Banking Act 1959</i>		
Purpose – ASIC has responsibility for the administration of unclaimed moneys from banking and deposit taking institutions. Moneys from banking and deposit taking institution accounts that remain inactive for seven or more years are transferred to the Commonwealth, and are deposited into the OPA.		
ASIC receives special appropriations from the OPA (section 69 <i>Banking Act 1959</i>) to refund amounts to banking and deposit taking institution account holders.		
All transactions under this Act are recognised as administered items.

Note 26: Expenditure relating to statutory boards and tribunal

Pursuant to Parts 11 and 12 of the *Australian Securities and Investments Commission Act 2001*, ASIC is required to support statutory boards and a tribunal to promote activities that assist ASIC to attain its aims.

The following expenditure incurred on behalf of these boards and tribunal are included in the Statement of Comprehensive Income of ASIC:

	2010 \$'000	2009 \$'000
Companies Auditors and Liquidators Disciplinary Board	645	1,074
Australian Accounting Standards Board ¹	n/a	1,602
Superannuation Complaints Tribunal	5,015	4,612

The Superannuation Complaints Tribunal (SCT) is an independent body with distinct responsibilities as set out under the *Superannuation (Resolution of Complaints) Act 1993* and has operated under the budgetary umbrella of ASIC since 1 July 1998.

¹ The Australian Accounting Standards Board became an FMA agency on 1 July 2009. From that date the AASB has received departmental appropriations directly from the Department of Finance and Deregulation, therefore ASIC has incurred no expenditure in support of the AASB during the year ended 30 June 2010.

Note 27: Assets of deregistered companies vesting in ASIC

Section 601AD of the *Corporations Act 2001* provides that, on deregistration of a company, all of the company's property vests in ASIC. ASIC adopts a passive approach to administering vested property and accounts for any proceeds on realisation of those assets in accordance with its statutory duties.

ASIC generally only deals with vested property once an application is made by a third party for ASIC to exercise its powers under section 601AE of the *Corporations Act 2001*. ASIC does not consider it practical to value any identified property vesting and consequently such property is not recorded or disclosed in these financial statements.

Note 28: Security deposits from dealers, investment advisers and liquidators

The *Corporations Act 2001* and the *Corporations Regulations 2001* require applicants for a dealers or investment advisers licence, and applicants for registration as a liquidator, to lodge a security deposit with ASIC. These moneys, deposits, stock, bonds or guarantees are not available to ASIC and are not recognised in the financial statements.

Note 29G: Services for Other Governments and Non-Agency Bodies Special Account (Administered)

This Special Account was established on 31 December 1997 by the Department of Finance and Deregulation in accordance with the terms of section 20 of the FMA Act (Services for Other Governments and Non-Agency Bodies Account). This account was closed on 11 September 2009.

Note 30: Reporting of outcomes

From 2009–10 ASIC's outcome structure was redefined as a result of a whole-of-Government review conducted by the Department of Finance and Deregulation. The 2008–09 comparatives have been prepared on the same basis. ASIC's revised outcomes are:

Outcome 1: Improved confidence in financial market integrity and protection of investors and consumers through research, policy, education, compliance and deterrence that mitigates emerging risks

Outcome 2: Streamlined and cost effective interaction and access to information for business and the public, through registry, licensing and business facilitation services.

Note 30A: Net (cost) / contribution of outcome delivery

Net (cost) / contribution of outcome delivery	(301,009)	(241,438)	490,525	491,400	189,516	249,962

The above table excludes intra-Government transactions.

The table shows the net contribution to the Commonwealth Budget outcome by adding the departmental and administered expenses, less external departmental and administered revenues and costs recovered to produce a net contribution to the Budget outcome of \$189.516m (2009: \$249.962m). This derived amount is meaningful only when it is used to consider ASIC's contribution to the Budget outcome for the purposes of whole-of-Government reporting. It is not intended to represent or portray an alternative operating result for ASIC to that which is disclosed in the Statement of Comprehensive Income.

Administered expenses represent revenue forgone to the Commonwealth as a result of refunds and waivers and write-offs of fees and charges owing to the Commonwealth (not ASIC) under the Corporations Act. Administered revenues and administered expenses are detailed in Notes 16 and 17 respectively.
