Yes  No

If Yes commence at 1.7.1, if No go to 2.

You are required to provide us with a list of the person or persons who control the licensee. Person includes both natural persons and body corporates. The definition of control is set out in Corporations Regulation 7.6.04(2).

Control is determined by:

- shareholding (directly or indirectly) of more than 50% of the issued capital (excluding preference shares);
- capacity to control the composition of the board of the licensee; and
- capacity to determine the outcome of decisions about financial and operating policies of the licensee.

A person controls a licensee if the person, either alone or together with its associates, controls the licensee. The person or an associate could be an individual or a body corporate. Further, as control can exist as a matter of law or as a matter of fact, two or more persons may control the licensee even in circumstances where such persons are not associates.
