IMPORTANT INFORMATION FOR APPLICANTS

PLEASE READ CAREFULLY BEFORE STARTING YOUR APPLICATION

Timeframes

ASIC usually makes a decision within **60 days of receipt of all requested materials**. You need to take this timeframe into account and if necessary, re-schedule any transactions (e.g. settlement dates) to include this 60 day period. Delays occur when incomplete applications are submitted.

Please allow at least 30 days before enquiring about the progress of your application.

General Information

ASIC generally exercises its powers under the Act to deal with vested property as a last resort. If another remedy (e.g. ASIC reinstatement or State/Territory legislative provisions) is unavailable, then you may apply for ASIC to deal with the property. The cost of alternative remedies by itself is not a sufficient basis for ASIC to exercise its powers to deal with property.

Applications are considered by ASIC on a case-by-case basis and there is no guarantee the application will be successful. If ASIC requires information or material in addition to those stated in this Checklist, ASIC will advise you and allow you an opportunity to provide that information.

ASIC will not consider an application until all requirements have been satisfied. You should therefore read this Checklist very carefully and ensure you have completed it properly before submitting your application. This will minimise inconvenience and delay in receiving a decision on your application. ASIC can assist if you have any questions about the requirements. However, you need to engage a solicitor if you require legal advice.

Application Fee

A statutory fee of \$934 is payable to ASIC by EFT payment. This fee is required by law and payable regardless of whether the application is approved or not. Applications will not be considered until this fee is paid. EFT payment details will be provided to you once a complete application is submitted to ASIC and a case officer confirms it is in order to proceed.

Please note this is a non-refundable fee, therefore applicants should give thorough consideration (obtaining independent legal advice as appropriate) whether all requirements the checklist have been satisfied before paying the application fee.

Urgent applications

In very limited situations ASIC may consider the assessment of an application on an urgent basis (i.e. within a specific and shorter timeframe). However, ASIC will only do so in exceptional circumstances because this would give the urgent application priority over other applications lodged in a timely manner.

Applicants must therefore clearly demonstrate that the urgency results from factors beyond their reasonable control, that they could not have reasonably foreseen. <u>Settlement of a contract is not a sufficient basis for urgent consideration</u>.

ADDITIONAL INFORMATION FOR APPLICANTS

A) If the property being transferred is land and the certificate of title is lost

If the certificate of title is lost or missing, you should contact the relevant State/Territory Titles Office for assistance.

In some jurisdictions, the Titles Office may require you to make an application for the issue of a substitute/replacement title. If necessary, you can request ASIC prepare a statutory declaration confirming that ASIC does not hold the certificate of title and has no knowledge of its whereabouts. If the Titles Office also requires ASIC's execution of an Application for Substitute/Replacement Title form then you should submit that together with the Transfer form (as per Requirement 7). The representative and sealing clauses as stated in Requirement 7 should also be correctly inserted in the appropriate places on the Application for Substitute/Replacement Title form.

B) Obligations go with the transfer

Any obligations attached to the property such as outstanding body corporate/owners corporation fees, rates, taxes or other charges, will be transferred with the property. ASIC will not accept any responsibility for such obligations regardless of when they were incurred. The onus is on you to make thorough and comprehensive searches regarding such matters.
