

To the Chairman Of Asic

We write to you, in relation to the Cigno Investigation, we wish to say that at the moment myself and my housemate are caught up in this and the amount of charges, they keep charging their clients. WE need to keep putting the loan on hold and get charged the \$20 fee at a time so we can survive. We think that Cigno should be brought under the credit act, or shut down. If you need further information you can contact me [REDACTED] on [REDACTED]. We have attached our latest statement from Cigno. We ask that before you release any information that you seek permission. Please note I have verbal authority to act for [REDACTED]

Thank You
