

# Microsoft Teams Meeting

- **Audience microphones will be muted** for the duration of the session
- Use the **Teams chat function to submit questions** to the Host and Presenters
  - We ask that questions are submitted through the chat only – ‘Raise hand’ function won’t be used for this session
- There will be time allocated at the end of the session for Q&A

*This event will not be recorded. Please be aware that your name, surname, image in your Teams profile and any content you include in the Teams chat may be seen by other participants. If the host enables your camera and/or microphone, you will be able to turn on/off your camera and unmute yourself so others can see/hear you.*

Deborah Young, CEO, RegTech Association

- **Q&A – Open Floor**

A decorative graphic on the right side of the slide. It features a large, dark blue diamond shape that is slightly offset to the right. Overlaid on this diamond is a lighter blue diamond shape, also slightly offset. Two parallel lines, one light blue and one dark blue, run diagonally from the top-left towards the bottom-right, crossing the diamond shapes.

## ASIC update

# Trends observed from engagement with regtech sector

## ASIC continues to receive requests for engagement from regtechs through the Innovation Hub.

- Some business model observations based on our recent engagement with regtech businesses:
  - **Information provision services** - such as reporting and analytics (some businesses identified as AI analytics while others reflected more traditional models)
  - **Analytics providers** that focus on confirming regulatory status of entities or individuals (with added capability to refer to ASIC guidance)
  - **Market facilitation services** such as tokenisation of traditional assets and ensuring compliance
  - **Reporting services** often connected to workflow management

# **Business Research and Innovation Initiative (BRII) RegTech Round**

**Ross Pearson, Chief Technology Officer, DHI-AI**

**Kenn Rodrigues, Managing Director, DHI-AI**

# Business Research and Innovation Initiative (BRII) Regulatory Technology Round

**BRII is a government program sponsored by the Department of Industry, Science, and Resources (DISR).**

- ASIC's BRII challenge focuses on developing a technology solution to help ASIC analyse corporate disclosures and other datasets to identify and assess compliance by listed companies.
- ASIC is excited to work with DHI-AI to develop a proof of concept for using technology to help identify and assess poor market disclosure by listed companies.
- DHI-AI will develop their proposed solution over a period up to 15 months (i.e. a MVP).
- Visit ASIC's [BRII RegTech Round](#) webpage for more information on the program.

# The RegTech Association industry update

Deborah Young, CEO, Regtech Association

Accelerating the adoption of RegTech and creating a global centre of excellence

Deborah Young, CEO, The RegTech Association

Regulatory Reporting, AML and Data management

\*Indicative initial data from The RegTech Association Industry Perspectives Report 2023 – full report available in November 2023

# Vision and Mission

Create a global centre of excellence

Acceleration of adoption of RegTech

## Four key strategic pillars

To facilitate connections  
to drive commercial  
outcomes

To educate and  
showcase to promote  
the industry

To explore and expand  
new opportunities in new  
markets or segments

To encourage  
and facilitate  
global investment

# Our focus for 2023-2026 for RegTech
