## Part 1.5 Participants of multiple Markets

### 1.5.1 Participants may rely on notifications

Where these Rules require a Market Participant to give to ASIC any document (however described) in relation to the Market Participant in relation to a Market, the Market Participant may give to ASIC the same document in relation to more than one Market, provided that:

- (a) the Market Participant has notified ASIC in writing that it intends to comply with these Rules by relying on that document, or on documents of that kind, in relation to each Market to which the document applies; and

- (b) the document contains all of the information that would be required to be in the document if it were given separately in relation to each Market.

## Part 1.6 Transitional

### 1.6.1 Status of notifications and certifications given by a Market Participant under the Pre-Commencement Market Integrity Rules

(1) This Rule applies if:

- (a) a Market Participant gave ASIC a written notification or certification under the Pre-Commencement Market Integrity Rules; and
- (b) the notification or certification has not been withdrawn or otherwise ceased to have effect; and
- (c) the power or obligation in the Pre-Commencement Market Integrity Rules to give the notification or certification is incorporated under a corresponding provision in these Rules.

(1B) For the purposes of subrule (1A), differences of all or any of the following kinds are not sufficient to mean that two provisions are not substantially the same:

- (a) differences in the numbering of the provisions;
- (b) differences of a minor technical nature (for example, differences in punctuation, or differences that are attributable to the correction of incorrect cross-references);
- (c) the fact that one of the provisions refers to a corresponding previous law and the other does not;
- (d) other differences that are attributable to the fact that these Rules apply to more than one Market.

(2) The notification or certification:

- (a) is taken to have been given to ASIC by the Market Participant under the corresponding provision in these Rules; and

### 5.2.3 Notification of Crossing System outages

(1) If technical or other system issues materially affect the efficiency of or proper functioning of a Crossing System operated by a Market Participant, that Participant must provide the following information, in writing, to ASIC and all users with Orders in the Crossing System other than users who are retail clients:

- (a) a description of the effect of the technical or other system issues;

- (d) when the technical or other system issues have been resolved,

as soon as practicable after the technical or other system issue arises, or the issue is resolved, as applicable.

## Part 5.3 Fair treatment, fairness and priority in dealing and opting out by users of Crossing Systems

### 5.3.1 Fair treatment of all users of a Crossing System

(1) A Market Participant that operates a Crossing System must ensure that the Crossing System is operated by a common set of procedures that balance the interests of all users of the Crossing System and do not unfairly discriminate between users of the Crossing System.

(2) Subrule (1) does not prevent a Market Participant that operates a Crossing System from providing less favourable treatment for its own use of the Crossing System, or less favourable treatment for use of the Crossing System by its related bodies corporate.

### 5.3.2 Fairness and priority in dealing

A Market Participant that operates a Crossing System must ensure that the Crossing System deals fairly and in due turn with:

- (a) clients' Orders; and
- (b) a client Order and an Order of the Participant trading as Principal.

### 5.3.3 Relevant factors

(1) In considering whether Rule 5.3.2 has been complied with, the following factors are relevant:

- (a) the Market Participant acts in accordance with its instructions;
- (b) Orders that do not involve the exercise of discretion by the Market Participant in relation to the time or price or quantity of the Order are entered in the Crossing System in the sequence in which they are received, and otherwise as expeditiously as practicable;
- (c) Orders of a client (which is not a Prescribed Person) that involve the exercise of discretion by the Market Participant in relation to the time or price or quantity of the Order are given preference, within the meaning of subrule (2), over the Market Participant's Orders as Principal, unless the client otherwise consents;
- (d) if the sequence of entry of Orders into the Crossing System is not clearly established by the time the Orders were received, and one of the Orders is for the Market Participant trading as Principal, the Market Participant gives preference to the Order of a client over the Market Participant's Orders as Principal;
- (e) if the Market Participant has acted in accordance with its procedures to ensure that a person initiating, transmitting or executing an Order who is aware of instructions of a client (which is not a Prescribed Person) to deal in the relevant financial products that has not been entered in the Crossing System does not use that information to the disadvantage of that client;
- (f) the Market Participant buys or sells for a wholesale client;

DRAFT

- (g) allocation of transactions executed on the Crossing System occurs fairly; and
- (h) a Participant's Orders as Principal are not knowingly interposed between Orders of its clients that would otherwise have Crossed.

(2) In paragraph (1)(c), a reference to a Market Participant giving preference to an Order of a client over the Participant's Orders as Principal means that from the time of receipt of the Order until it is fully executed, the Market Participant does not enter into, as Principal, a transaction executed on the Crossing System for the same financial products on the same terms, having regard to subrule (3), unless:

- (a) the financial products are allocated to the client in accordance with the client's instructions; or
- (b) the financial products are allocated to the client pursuant to an allocation policy previously disclosed to the client, to which the client consents, under which the Market Participant may buy or sell (and be allocated) the same financial products as Principal.

(3) For the purposes of subrule (2), a limit Order which cannot be executed owing to price differences is not on the same terms.

#### **5.3.4 Opting out of Crossing Systems**

A Market Participant that operates a Crossing System must permit a client or other user of the Crossing System to opt out of having its Orders sent to the Participant's Crossing System (including any other Crossing System that may be accessible through the Market Participant's Crossing System), and the Market Participant must not impose on a user that opts out any additional operational or administrative requirements as a consequence of opting out of the Crossing System.

for a period of seven years.

- (a) a person (***the Insider***) has placed an Order into or entered into a transaction on the Crossing System operated by the Participant in relation to a financial product while in possession of inside information (within the meaning of section 1042A of the Act), whether or not the Market Participant is aware of:
  - (i) the identity of the Insider; or
  - (ii) all of the details of the Order or transaction; or
- (b) a transaction or an Order transmitted to or executed on the Crossing System operated by the Market Participant has or is likely to have the effect of:
  - (i) creating an artificial price for trading in financial products on a financial market operated in this jurisdiction;
  - (ii) maintaining at a level that is artificial (whether or not it was previously artificial) a price for trading in financial products on a financial market operated in this jurisdiction;
  - (iii) creating, or causing the creation of, a false or misleading appearance of active trading in financial products on a financial market operated in this jurisdiction; or

whether or not the Market Participant is aware of:

- (vi) all of the details of the transaction or Order,

the Market Participant must, as soon as practicable, notify ASIC in writing of the details of the transaction or Order (to the extent known to the Participant) and the reasons it suspects the matter set out in paragraphs (a) and/or (b).

(2) A Market Participant is not required to notify ASIC under subrule (1) if the Market Participant has reported the information that would otherwise be required to be contained in the notification to ASIC under subrule (1) to the Australian Transaction Reports and Analysis Centre under section 41 of the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* or under section 16 of the *Financial Transaction Reports Act 1988*.

#### Auditor's Report

We have audited the accounting records and internal control policies and procedures (“internal controls”) of .....[entity name] (the “Participant”) designed to ensure compliance with the requirements of Rule 2.2.6 of the *ASIC Market Integrity Rules (Futures Markets) 2017* (“Futures Markets Rules”) in relation to clients’ segregated accounts (the “Clients’ Segregated Accounts Rules”) in order to express an opinion about their effectiveness for the period/year ended .....[date] (“the Financial Year”).

The directors of the Participant are responsible for maintaining an effective internal control structure, including establishing and maintaining accounting records and effective internal controls designed to ensure compliance with the requirements of the Clients’ Segregated Accounts Rules. We have conducted an independent audit of the internal controls designed to ensure compliance with the requirements of the Clients’ Segregated Accounts Rules in order to express an opinion on them to the directors of the Participant for the Financial Year ended.....[insert date].

Our audit has been conducted in accordance with Australian Auditing Standards and accordingly included such tests and procedures as we considered necessary in the circumstances. Our procedures included examination, on a test basis, of evidence supporting the Participant’s accounting records and operation of its internal controls in relation to compliance with the requirements of the Clients’ Segregated Accounts Rules. These procedures have been undertaken to form an opinion whether in all material aspects, the Participant maintained suitably designed and effective internal controls to ensure compliance with the requirements of the Clients’ Segregated Accounts Rules for the Financial Year.

This report has been prepared for the Participant in order to meet its obligations to give this report to ASIC in accordance with paragraph 2.3.5(1)(b) of the Futures Markets Rules. We disclaim any assumption of responsibility for reliance on this report to any person other than the Participant and ASIC, or for any purpose other than that for which it was prepared.

#### Inherent Limitations

Because of the inherent limitations of any internal control structure it is possible that fraud, errors or noncompliance with laws and regulations may occur and not be detected. Further, the overall internal control structure, within which the internal controls designed to ensure compliance with the requirements of the Clients’ Segregated Accounts Rules operate, has not been audited, and no opinion is expressed as to its effectiveness.

An audit is not designed to detect all weaknesses in internal controls or all instances of noncompliance with the requirements of the Clients’ Segregated Accounts Rules as it is not performed continuously throughout the period/year and the tests performed over the internal controls are on a sample basis having regard to the nature and size of the Participant.

DRAFT

Any projection of the evaluation of internal controls to future periods is subject to the risk that the internal controls may become inadequate because of changes in conditions, or that the degree of compliance with them may deteriorate.

The audit opinion expressed in this report has been formed on the above basis.

### **[Qualified] Auditor's Opinion**

In our opinion, [except for the matters referred to in the qualification below,] the Participant maintained, in all material respects during the Financial Year, suitably designed and effective internal controls to comply with the requirements of the Clients' Segregated Accounts Rules.
