- (iv) a change to the way a Reporting Entity records an OTC Derivative in the Reporting Entity's books and records, from representation as a transaction, to representation as a position, being changes that are terminations in the Reporting Entity's records, and new positions recorded there.

Note: A change to the way a Reporting Entity records an OTC Derivative in its books and records, from being represented as a transaction, to being represented as a position includes reporting the termination of the original transaction and the reporting of a new position. Both the termination and the new position are Reportable Transactions. In addition, the reporting of the new position requires the determination and reporting of a new UTI (see Rule 2.2.9).

(2) A **Reportable Transaction** includes a Derivative Transaction referred to in paragraph (1)(b):

- (a) by an RE or Trustee in its capacity as RE or Trustee of an Australian Entity, and in those circumstances the **Reporting Entity** is the RE or Trustee; and
- (b) by a CCIV or a person acting for or on behalf of a CCIV, and in those circumstances, the **Reporting Entity** is the corporate director of the CCIV.

Note: The meaning of Reporting Entity for an RE and a Trustee is affected by Rule 2.2.9(2), in relation to generating and reporting a UTI, and by Part S1.1, in relation to reporting Derivative Transaction Information.

(3) An entity is not a Reporting Entity for a Reportable Transaction in a Prescribed Class if the entity is an AFS Licensee whose AFS Licence does not authorise them to provide financial services in relation to that Prescribed Class.

Note: Under regulation 7.5A.50 of the Corporations Regulations 2001, Reporting Requirements cannot be imposed on some classes of persons.

(4) An entity is not a Reporting Entity for a Reportable Transaction, where:

- (a) the entity, acting in the capacity of a clearing member of an authorised clearing facility, clears the Reportable Transaction for another entity through the authorised clearing facility; and
- (b) under the operating rules of the authorised clearing facility, each of the entity, the other entity and the operator of, or a related body corporate of, the authorised clearing facility have rights or obligations of the Reportable Transaction.

Note: Operating rules of an authorised clearing facility that provide for an agency clearing model may provide that both the clearing member and the client or affiliate (each an 'other entity' referred to above) of the clearing member are counterparties of the operator of the authorised clearing facility—in which case, the clearing member is not a Reporting Entity

Note: For example, Item 103 in Table S1.1(1) - Reporting timestamp is an item that may be created by a Derivative Trade Repository derived from the submission by a Reporting Entity of a report about a Reportable Transaction.
