- (d) a primary market action, including a Takeover Off-Market Bid for relevant products or an issue, allotment or subscription of new relevant products.

Part 5.1 Client order priority

5.1.1 Application and meaning of dealing on “Own Account”

Subject to Rule 5.1.2, a reference to a Market Participant having an order for its own account means:

- (a) in relation to Cash Market Transactions, that the Cash Market Products to be bought or sold are (in the case of a sale) or will be on the completion of the transaction (in the case of a purchase) beneficially owned by the Market Participant or a Prescribed Person, where the Cash Market Products beneficially owned by a Market Participant or Prescribed Person include Cash Market Products which would appear as assets on the balance sheet or consolidated balance sheet of that Market Participant or Prescribed Person; and

5.1.2 Exceptions

A Market Participant must deal fairly and in due turn with:

- (a) clients' Orders; and
- (b) a client Order and an Order on its Own Account.

5.1.4 Relevant factors

(1) In considering whether Rule 5.1.3 has been complied with, the following factors are relevant:

- (a) the Market Participant acts in accordance with its instructions;
- (b) orders that do not involve the exercise of discretion by the Market Participant in relation to the time or price or quantity of the order are entered in a Trading Platform in the sequence in which they are received, and otherwise as expeditiously as practicable;
- (c) orders of a client (which is not a Prescribed Person) that involve the exercise of discretion by the Market Participant in relation to the time or price or quantity of the order are given preference, within the meaning of subrule (2), over Orders on the Market Participant's Own Account, unless the client otherwise consents;
- (d) if the sequence of entry of Orders into a Trading Platform is not clearly established by the time the Orders were received, and one of the Orders is for the Market Participant's Own Account, the Market Participant gives preference to the Order of a client over any order for the Market Participant's Own Account;
- (e) if the Market Participant has acted in accordance with its procedures to ensure that a person initiating, transmitting or executing an Order who is aware of instructions of a client (which is not a Prescribed Person) to deal in the relevant products that has not been entered in a Trading Platform does not use that information to the disadvantage of that client;
- (f) the Market Participant buys or sells for a wholesale client;
- (g) allocation of Market transactions occurs in accordance with Rule 5.1.5; and
- (h) a Market Participant's Orders on its Own Account are not knowingly interposed between Orders of its clients that would otherwise have Crossed.

(2) In paragraph (1)(c), a reference to a Market Participant giving preference to an Order of a client over an Order on the Market Participant's Own Account, means that from the time of receipt of the Order until it is fully executed, the Market Participant does not enter into, on its Own Account, a Market transaction for the same financial products on the same terms, having regard to subrule (3), unless:

- (a) the financial products are allocated to the client in accordance with paragraph 5.1.6(c);
or
- (b) the financial products are allocated to the client pursuant to an allocation policy previously disclosed to the client, to which the client consents, under which the Market

DRAFT

Participant may buy or sell (and be allocated) the same financial products on its Own Account.

(3) For the purposes of subrule (2), a limit order which cannot be executed owing to price differences is not on the same terms.

(4) A Market Participant must keep a record of any consent given by a client for the purposes of paragraph (1)(c).

5.1.5 Fairness and priority in allocation

A Market Participant must allocate Market transactions fairly.

5.1.6 Relevant factors

In considering whether Rule 5.1.5 has been complied with, the following factors are relevant:

- (a) allocation of Market transactions is immediate and automatic, unless circumstances or instructions justify later or manual allocation;
- (b) Market transactions executed pursuant to instructions (whether an Order of a client or an Order on its Own Account) are allocated in the sequence in which the Market Participant received those instructions, entered those instructions or the Market transactions were effected;
- (c) the client's instructions;
- (d) allocation of a Market transaction occurs in accordance with the disclosed allocation policy of the Market Participant; and
- (e) except as provided in these Rules or the operating rules of the Market where the transaction was executed, a Market Participant does not allocate Market transactions to fulfil all or part of an Order for its Own Account when it has an unfulfilled Order on the same terms for those Market transactions from a client.

5.1.7 Unexecuted order in Underlying Financial Products—Trading Participant not to make Bids or Offers

If a Trading Participant has or receives an Order to buy or sell an Underlying Financial Product in the Underlying Market which may materially affect:

- (a) the market price of the Underlying Financial Product in the Underlying Market; or

(1) A Market Participant must when requested to do so by a person (the **Client**), disclose to the Client each of the following:

- (a) the policy it adopts in the allocation of Market transactions to fill orders placed with it, for each Market requested by the Client; and
- (b) in relation to Crossings under the operating rules of each Market requested by the Client:
 - (i) that the Client's orders may match opposite orders in a Trading Platform by the same Market Participant, effectively resulting in a Crossing and entitling the Market Participant to commission from both sides of the transaction; and
 - (ii) if the Market Participant deals as Principal, that the Client's orders may match opposite orders in a Trading Platform on behalf of the same Market Participant as Principal.

(2) The Market Participant must keep a record of disclosures made under subrule (1).

5.4.2 Internal consent required for trading by connected persons

(1) A Market Participant must not enter into a Market transaction by or for the account of its connected persons, whether the Market transaction is conducted through that Market Participant or through another Market Participant, unless the Market transaction has been approved in writing in accordance with subrule (4) by a director or partner of the Market Participant or a person with written delegation for that responsibility from a director or partner (other than the Employee concerned).

(2) A Market Participant must obtain a separate approval under subrule (1) for each relevant Market transaction.

(3) A Market Participant must take reasonable steps to ensure that a person who approves a Market transaction under subrule (1) takes into account the circumstances of the proposed transaction and anything which might materially affect the price of the relevant Cash Market

Part 5A.3 Fair treatment, fairness and priority in dealing and opting out by users of Crossing Systems

5A.3.1 Fair treatment of all users of a Crossing System

(1) A Market Participant that operates a Crossing System must ensure that the Crossing System is operated by a common set of procedures that balance the interests of all users of the Crossing System and do not unfairly discriminate between users of the Crossing System.

(2) Subrule (1) does not prevent a Market Participant that operates a Crossing System from providing less favourable treatment for its own use of the Crossing System, or less favourable treatment for use of the Crossing System by its related bodies corporate.

5A.3.2 Fairness and priority in dealing

A Market Participant that operates a Crossing System must ensure that the Crossing System deals fairly and in due turn with:

- (h) a Participant's Orders as Principal are not knowingly interposed between Orders of its clients that would otherwise have Crossed.

(2) In paragraph (1)(c), a reference to a Market Participant giving preference to an Order of a client over the Participant's Orders as Principal means that from the time of receipt of the Order until it is fully executed, the Market Participant does not enter into, as Principal, a transaction executed on the Crossing System for the same financial products on the same terms, having regard to subrule (3), unless:

- (a) the financial products are allocated to the client in accordance with the client's instructions; or
- (b) the financial products are allocated to the client pursuant to an allocation policy previously disclosed to the client, to which the client consents, under which the Market Participant may buy or sell (and be allocated) the same financial products as Principal.
