Thanks **S 22** for sending these through. FYI - we've got a draft media release on the EXAD appointment with the Media Unit and are about to send a brief to the delegates panel recommending the suspension of FTX Australia's licence (subject to conditions, e.g. allowing clients to close out positions)

update on the MR - s 22 and I met with s 22 and he suggested we go out with it on Monday - and look to include the suspension (subject to s 22's decision)

if the suspension doesn't happen or takes some time for a decision, he suggested we release the current MR as a news centre article so it becomes a living doc on the website for the consumer audience

s 22 is out of office and may not respond
